

## FORMER PREMIER OF FRANCE FACES TREASON CHARGE

Most Sensational Political Trial in History is Begun.  
OVER YEAR DELAYED  
Documentary Evidence Introduced to Prove Allegations.

Paris, Feb. 17.—Former Premier Joseph Caillaux was arraigned today on the charge of having treasonable dealings with the enemy during the war and there is every indication that the case will prove the most sensational political trial France has ever known.

M. Caillaux will be tried by the French senate sitting as a high court of justice. The trial is expected to last about three months.

Although he has been ill, the defendant appeared in good health when he was brought into the courtroom from the automobile which had carried him from Neuilly. He replied in a firm tone to the formal preliminary questions as to his name, age and occupation.

The trial has been hanging fire for more than a year and the deep public interest was shown by the large crowds which gathered before the Luxembourg palace—where the trial is being held. The galleries were crowded and there were many women present, including Mme. Caillaux.

Leon Bourgeois, as president of the senate, will preside, and the government's case will be presented by M. Lescouvie. The bill of accusation was an immense document and specifically charges the Premier with "acting against the safety of the state in war time and conveying intelligence to the enemy." More than 7,000 documents are to be presented, including cablegrams from Count Johann von Bernstorff, former German ambassador to the United States. The documentary evidence further includes papers seized by the French in Alsace, relating to M. Caillaux's pre-war policy while he was a power in the French government. These papers are expected to show M. Caillaux's attitude toward Germany.

## WHITMAN FIGHTS TO KEEP GARBAGE JOB IN SPRINGFIELD

Springfield, O., Feb. 17.—Under oath before Judge Geiger in Common Pleas court yesterday afternoon, (over Fleming repeated the accusation that City Commissioner John D. Frock had demanded of him \$2,500 and 25 hogs for the garbage contract and Frock, also under oath, positively denied this and other charges.

Fleming further charged that Frock asserted that \$2,000 could be made by compelling the people to use a certain kind of garbage can, from the sale of which, it is alleged, Frock, Whitman and Fleming would benefit. This was brought out in the hearing of the injunction suit filed against the City Commission by William C. Whitman, "human fly" and employee of Frock to prevent the commission rescinding its action in awarding him the garbage collection contract on his bid of \$5,700 a year for five years.

The hearing in the injunction suit was the main event in the so-called bribery cases Monday, no action being taken at the city commission meeting Monday. Commissioner Frock at that time demanded an investigation of his "public and private life," and the commission decided to await Judge Geiger's action in the Whitman injunction before taking it up.

## WOOD HEADQUARTERS OPENED IN CAPITOL

Columbus, O., Feb. 17.—Opening of the Major General Leonard Wood headquarters here, from which he will wage the Republican presidential campaign in Ohio, has been made by John H. Price, C. Cleveland attorney in the famous "McKinley suit."

Price, formerly chairman of the Republican executive committee of Cuyahoga county, announced that he would hold conferences with prominent Ohio supporters of General Wood to determine whether it would be better to try and nominate Wood delegates to the convention or place the general's name on the April preferential primary ballots.

Prediction was made by Price that Wood would be nominated at the Republican convention before the third ballot. He considers Wood uniformly strong throughout the country more so than the "favorite sons."

## POINCARÉ FINISHES TERM AS PRESIDENT

Paris, Feb. 17.—Raymond Poincaré's eventful seven year term as president of France came to an end today. His farewell message was read in the senate chamber this afternoon. He urged constant watch on Germany and unity throughout France "like brothers helping a convalescent mother." Paul Deschanel will assume the presidency tomorrow.

## OFFERED CABINET POSITION LANSING RESIGNS

Newton D. Baker.

Newton D. Baker, secretary of war since the resignation early in the war of Secretary Garrison, may be offered the portfolio of secretary of state, left vacant by the resignation of Robert Lansing. Baker is known to be a favorite with President Wilson and the chief executive may, for this reason, ask Baker to take charge of the state department and adjust matters pending there to the president's satisfaction.

## WAGE INCREASE TO COAL MINERS FALLS ON PUBLIC

Washington, Feb. 17.—Increased wages granted soft coal miners by agreement with Attorney General Palmer falls on the general public," Frank Bergan, representing the public service corporation of New Jersey told the senate interstate commerce sub-committee today.

The increased wages amounting to 12 per cent have increased the price of coal thirty cents a ton, "which increase must be assessed on the consumer," Bergan said.

"If we cannot assess the public our credit depreciates and the company is unable to develop."

"If there is a fuel administration to whom you can protest against the increase in wages granted by the attorney general," Senator Frelinghuysen asked.

"There is no place where we can protest against the burden except this committee," Bergan answered.

Senator Frelinghuysen read the testimony of former Fuel Administrator Garfield in which he said the increase, according to what was known as the Garfield plan, would have been absorbed by the operators.

"Under the Garfield plan the increase in wages would not have been assessed on the public," Frelinghuysen said. "But under the Palmer agreement it is a tax on the public."

The committee will hear George W. Elliott, representing the national committee on gas and electric service, A. W. Brady president of the Union Traction company of Indianapolis; Charles Edgar, president of the Boston Edison Co.; Paul Thomas vice president of the United Gas Improvement Co., of Philadelphia; M. H. Aylesworth, National electric light association; O. M. Fogg, American gas association and S. E. Wolf, representing the Michigan Utilities corporation, this afternoon.

## WHITE HOUSE DENIES REPORTS OF CALLING OF BRAIN SPECIALIST

Washington, Feb. 17.—Sensational reports circulated last night to the effect that Dr. Felix Dercum, the president's brain and nerve specialist, had been hurriedly summoned to the White House, were denied today. It was stated at the White House that Dr. Cary T. Grayson, the president's personal physician, had spent the night there, but that this was nothing unusual.

President Wilson is up this morning and has been shaved as usual, it was stated.

## HEALTH CONDITION REPORTED IMPROVED THROUGH CAPITOL

Columbus, Feb. 17.—With reports to local health officials of 56 deaths within the last 24 hours, all previous mortality records here were broken. Despite the fact that physicians reported 64 new cases of influenza, it is believed that the epidemic situation is improving.

Of the 56 deaths here, 25 resulted from influenza and 12 from pneumonia.

## NEW RESERVATION TO TREATY IS RESULT OF LANSING OUSTING

### AIRCRAFT PLANS OF GOVERNMENT ARE ATTACKED

House Hears Report of Probe Into Air Craft Production.

### MINORITY FINDING UP

Extravagance Charge is Keynote of Statement By Body.

Washington, Feb. 17.—The special committee inquiring into war expenditures presented to the house reports of the investigation of the air craft production program.

Representatives Fear and Magee, the two Republicans of the subcommittee which conducted the investigation, characterized the aviation program in their report as "a riot of waste," and Representative Lea, the Democratic member of the subcommittee, declared in his report that the Republican members had sacrificed facts for sensationalism in an effort to discredit the government. Colonel E. A. Deeds of Dayton is severely criticised.

A prominent part of both reports is given to the controversy over the connection of John D. Ryan, former director of air craft production, with the construction of a government-built railroad, which, it has been charged, redounded to the benefit of the Chicago, Milwaukee and St. Paul road, of which Mr. Ryan is a director.

The majority report on that point said: "If Mr. Ryan's statement of disinterestedness is true, he has been most unfortunate in handling a public matter that, in the judgment of your committee, covered a flimsy effort to promote large private business interests and was accompanied by blundering explanations from beginning to end."

Mr. Lea's report said that Ryan gave up his private business to help the government. He said that the decision as to the railroad was determined several weeks before Ryan became connected with the air craft service.

The majority report characterizes the railroad incident as a "remarkable chain of circumstances," and praises patriotic loggers and lumber men for bringing the situation to light.

### DR. SHERWOOD EDDY SPEAKS AT OHIO CONFERENCE MEET

Columbus, O., Feb. 17.—Addresses featured today's sessions of the conference of Ohio ministers, being held under the auspices of the inner church world movement. Among those on today's program are Dr. Sherwood Eddy and Dr. W. B. Hollingshead, New York.

Discussion of the social, political and religious conditions in Latin America, India, China and the Philippines marked the opening session of the conference. Need of educational and religious workers in these countries was emphasized.

### THINK BRITAIN TO MAKE RUSSIAN PEACE

Berlin, Feb. 16.—(Delayed)—London is buying immense sums of Russian rubles on the German bourse, and belief was expressed today in financial circles that this might be accepted as an indication that "Great Britain is preparing to make peace with soviet Russia."

Because of protests from anti-Bolshevik circles the American government must forbade dealings in rubles, consequently the transactions are carried on in secret and the amounts of purchases cannot be accurately estimated. The exchange rate on the ruble is rising rapidly and already the ruble is more valuable than the German mark.

### LONDON PRESS RAPS DIPLOMAT

London, Feb. 17.—A strong attack against the proposal to send Earl Reading, the lord chief justice, to Washington as British ambassador was printed in the Morning Post today.

"If Earl Reading is sent to the United States it would be a scandal," the Morning Post said.

The newspaper refers back to the sensational litigation in England over the transaction in Marconi Wireless stock in which the lord chief justice was involved.

Would Require President to Act on Bill Within Thirty Days.

### FORCE WILSON'S HAND

Lodge Reservations Form Basis for Presidential Action.

Washington, Feb. 17.—Former Secretary Lansing's resignation, and the long chain of events leading up to it, including Lansing's disagreement with President Wilson at the peace conference, will be probably injected into the peace treaty debate in the senate today.

Senator Brandegee, Republican of Connecticut, is preparing to play what he and other senators opposed irrevocably to the American people being thrust into the League of Nations, regard as a trump card.

Brandegee proposes to offer a new reservation that upon the failure of the president to deposit the treaty at Paris within thirty days after its ratification by the senate the act of ratification shall be considered nullified and the treaty "dead" so far as the United States is concerned.

The ostensible purpose of the suggested Brandegee reservation is to force the president's hand in the event an agreement is reached eventually on the Lodge reservations which will bring about ratification, and to prevent him, in case he finds the agreement unacceptable to him, from thrusting the treaty in a pigeon hole of his desk or "carrying it around in his pocket."

It is apparently intended to compel the president either to deposit or reject the treaty on the basis of the Lodge reservations to which he is opposed, instead of merely pigeon-holing it or pocketing it.

But its real purpose is believed to provoke a debate that will swing around the Lansing resignation and the president's reason for accepting it. Lansing's usurpation of the presidential prerogatives, by calling cabinet meetings while the president was incapacitated for four or five months.

Brandegee and other anti-administration senators will urge that "only as a precautionary measure" the senate, in the event of its ratifying the treaty, should adopt a proviso that the president must act on the treaty within 30 days after he receives it from the senate. They will contend the senate should prepare the treaty for the possibility of just such a contingency as confronted the country after the president's collapse on his ill starred tour of the west in behalf of the league of nations and unreserved ratifications.

Brandegee and other senators bitterly opposed to the treaty intend to seize any opportunity to rip the lid off the Wilson-Lansing affairs and they promise some lively sessions of the senate if they succeed in doing so. One of the rumors which was to be aired on the floor of the senate was that Mr. Lansing was removed because he had been in favor of Vice-President Marshall taking over the duties of the president during his illness.

### FRENCH PRESS RAPS WILSON'S PROTEST NOTE

Paris, Feb. 17.—A violent attack against President Wilson and his British supporters on the Jugo-Slavian controversy appeared under the signature of Pétain in the Echo de Paris today. According to the writer, John W. Davis, American ambassador to England, may refuse to transmit to Washington the allies reply to President Wilson's note of protest.

M. Sauerwein, writing in the Matin, expressed the opinion that "there is no doubt that President Wilson is seeking a rupture to allow him to withdraw the peace treaty from the American senate." The writer adds: "The impetuous way in which President Wilson has returned to public affairs at this moment of greatest difficulty in settling the European problems, is an intolerable act for which it is to be hoped he is not fully responsible."

### PROOF FURNISHED FOR DEPORTATION OF RED AGITATORS

Washington, Feb. 17.—Assistant Attorney General Carvan today announced that a mass of overwhelming proof warranted the immediate deportation of the 29 "reds" arrested in the Baterson raids. Mr. Carvan said the department will move quickly not only to send these terrorists out of the country, but to round up others, probably several scores, whose identity is now known to the secret service agents, through records obtained in the raids.

### ALLIES ANSWER WILSON'S LETTER ON FIUME ROW

President Invited to Offer Solution of the Dispute

### DEFEND PROPOSAL

Entente Proposition Not Unfavorable to the Jugo-Slavs.

London, Dec. 17.—The allied reply to President Wilson's memorandum regarding the Adriatic settlement will, according to information from reliable quarters, assure the president that the allied proposal of Jan. 20 is not so unfavorable to the Jugo-Slavs as he believes.

The note will be brief, it is said, consisting of about 150 words, and, according to these quarters, will say it is recognized that the allies can not settle the question without the co-operation of the United States, and inviting the president to present a solution of the Adriatic problem.

President Wilson's note to the peace conference on the Adriatic question has furnished London political and newspaper circles with a surprise and interest surpassing that evoked by the Wilson-Lansing correspondence.

The president's reappearance as a determined party in the peace negotiations was construed as almost as threatening as his order for the steamer George Washington to be prepared to take him home from France.

The first versions of the event gave the aspect of an ultimatum, which meant that the council of the allies must stand by the terms which President Wilson accepted in December or America would shake the dust of European affairs off her feet altogether, and also that the council had framed a stiffly worded reply, adhering to its January offer to the Jugo-Slavs.

Later information appeared to soften the stiff-necked positions credited to both parties. This consisted of messages from Washington that too sweeping a construction had been given to the president's words, fortified by news from Downing street that the council had not finished composing its answer.

The note was not a threat to withdraw from participation in European affairs, it was declared from Washington, but said the United States could not be a party to the disposition of Fiume as agreed upon by the allied premiers without consulting the United States, and consequently would not concern itself with the questions involved, including the policing of the Adriatic, if the settlement were enforced on the government of Jugo-Slavia.

### BENSON SLATED AS SUCCESSOR TO J. B. PAYNE

Washington, Feb. 17.—Admiral W. S. Benson, U. S. N., retired, will be appointed as chairman of the U. S. Shipping Board to succeed John Barton Payne, who has been nominated as secretary of the interior it was announced today at the White House.

The appointment will not be made for a month or six weeks as Chairman Payne desires to complete work which he has already stated in the shipping board.

### PROOF FURNISHED FOR DEPORTATION OF RED AGITATORS

Washington, Feb. 17.—Assistant Attorney General Carvan today announced that a mass of overwhelming proof warranted the immediate deportation of the 29 "reds" arrested in the Baterson raids. ### DANCER ENDS ENGAGEMENT

Paris, Feb. 17.—Carl Randall, of Chicago, internationally famous as a dancer, has ended his engagement here to marry an English girl of a wealthy and titled family, the Paris Midi stated today.

## SHE'S WELL KNOWN SUFFRAGE WORKER IN NETHERLANDS

Mrs. Wijnandts Francken.

Mrs. Wijnandts Francken is one of the leaders of the women's movement which has spread over entire Holland since the acquisition of their vote. Mrs. Francken is but an example of her many countrywomen who have organized committees and leagues for the improvement of conditions of women of the Netherlands. One of the results of their efforts is that there are now women in nearly every town council.

## DENIAL IS MADE THAT PRESIDENT ISSUED THREATS

Washington, Feb. 17.—President Wilson's protest to the European powers on the proposed settlement of the Adriatic question was brief, it was stated at the White House today. It was stated that it was not "more than eight or ten lines."

Despite statements made semi-officially yesterday that the president had threatened to withdraw from participation in the patrol of the Adriatic and the settlement of that question it was stated today that the president had made no threats.

It was stated today that the president had simply reaffirmed his position as to the Fiume question and had notified the allied powers that in as much as this nation had agreed to a proposed settlement of that question during the peace conference that there should be no change in that settlement without the consent of this government.

## ALLIES REFUSE TRIAL REQUEST OF GERMANS

London, Feb. 17.—The allied reply to the German note of Jan. 25, proposing as an alternative to extradition that persons accused by the allies be tried at Leipzig, states that Germany's proposal for such trial at Leipzig is incompatible with article 23 of the peace treaty. The allies, the note says, will abstain from intervention in the procedure of that court.

After stating that the allies have carefully considered the German note of January, the reply says: "The powers observe, in the first place, that Germany declares herself unable to carry out the obligations imposed on her by articles 228 to 230, which she signed. They reserve to themselves the power to employ in such measure and form as they may judge suitable the rights accorded to them in this event by the treaty."

It is possible that re-examination of the charges of war guilt against the duke of Hesse, who is listed among the Germans demanded by the allies, may lead to his name being stricken from the list.

## PROSECUTION OF I. W. W. MEMBERS CONTINUES

Montesano, Wash., Feb. 17.—The state will continue today its examination of eye witnesses of the Centralia armistice day tragedy at the trial here of the eleven alleged I. W. W. charged with murder of Lieut. Warren Grimm, legionnaire.

Today and tomorrow will be given over, it is intimated, in an effort on the part of the state to prove that the deaths of all the ex-soldiers slain in the Centralia shooting was due to these same eleven men though they are not charged with the deaths of any others than Grimm.

The jury may go to the scene of the crime at Centralia next Saturday.

## RIDES AIRPLANE TO SEE MOTHER

Sandusky, O., Feb. 17.—Theodore E. Lauber arrived here yesterday just in time to attend the funeral of his mother, Mrs. Margaret Lauber, who died last Friday. Mrs. Lauber, who was at Nassau, Bahama Islands was notified by cable he rode from Nassau to Miami, Fla., in a seaplane in the hope that he might see his mother alive. She died while on his way home.

## RAIL OFFICES TO BE DISCONTINUED BEFORE MARCH

Legislation to Protect Roads Rushed To Passage.

### AGREE TO PROVISIONS

Net Operating Income of 5 1-2 Per Cent Has Been Fixed.

Washington, Feb. 17.—Director General Hines of the railroad administration today announced the discontinuance of the offices of all regional directors March 1. Director Hines announced the resignation of Hale Holden, regional director for the central western region, effective as of February 15. The duties of the office will be carried on until March 1 by Robert Ashton, regional director of the northwestern district.

Engineering and purchasing experts on the staffs of the regional directors will be transferred to Washington on March 1, to take part in the final adjustment of the affairs of the railroad administration.

Washington, Feb. 17.—Railroad legislation needed to protect the railroads upon their return March 1, to their private owners will be reported to the house tomorrow and will be rushed to passage by that body. Present plans are to bring it up next Saturday. The senate is expected to follow with speedy action.

The legislation comes from the senate and house conferees in reports to the senate and house with agreements as to the following general provisions: The interstate commerce commission shall establish rates which shall yield on the aggregate property, value of all roads in each rate making district as set forth a net operating income of 5 1-2 per cent, to which may be added one-half of one per cent to be applied to non-productive improvements, such as stations, terminals, straightening rights of way etc.

Two years after the law shall take effect and at stated intervals thereafter, the interstate commerce commission may change the rate of return by increasing or decreasing the 5 1-2 per cent guaranty based on rates authorized. Rates now in effect are continued for the period of government guaranteed returns.

The roads are required to retain as surplus, or funds otherwise described, for a period of six years fifty per cent of the net operating income in excess of six per cent, but at the end of that period this surplus may be distributed.

The roads are required to retain as surplus, or funds otherwise described, for a period of six years 50 per cent of the net operating income in excess of six per cent, but at the end of this period this surplus may be distributed.

The guaranty of fixed returns applies to operating revenues only and use or distribution of other incomes are not restricted.

During the six months of guaranteed standard returns for the roads the interstate commerce commission only shall have power over rates, and no interstate or interstate rate may be changed except upon decision by the commission.

The interstate commerce commission is to fix maximum and minimum rail rates. The water carriers are exempted specifically from authority of the interstate commerce commission, south portion Wednesday.

## STATE INTRODUCES NEW METHOD IN NEWBERRY TRIAL

Grand Rapids, Mich., Feb. 17.—Cross examination of operatives of the federal department of justice who witnessed signed statements from a number of the 123 defendants in the Newberry vote fraud and conspiracy case featured the start of today's session of the trial.

In the use of these operatives, the government introduced a new method of introducing its evidence against the Newberry defendants. The signed statements which, it is charged show that the county campaign expenses alone averaged \$1,000 a county in many of the eighty counties in Michigan were obtained from the defendants as they left the grand jury room after testifying.

It was apparent today that the defense hopes to discourage the giving of testimony along this line by forcing the government agents to go over with them in detail the entire conversations from which the signed statements emanated.

The cross examination of a number of government witnesses has been delayed by the illness of several of the defendants. The trials sick list continues to grow.

## PREVOST INDICTED ON MURDER CHARGE

Mt. Clemens, Mich., Feb. 17.—Lloyd Prevost was bound over to the circuit court on a charge of first degree murder in connection with the slaying of J. Stanley Brown, wealthy resident of this city, found murdered in his automobile on a lonely road near Mt. Clemens, last December.

Berlin, Feb. 16.—(Delayed)—London is buying immense sums of Russian rubles on the German bourse, and belief was expressed today in financial circles that this might be accepted as an indication that "Great Britain is preparing to make peace with soviet Russia."

Because of protests from anti-Bolshevik circles the American government forbade dealings in rubles, consequently the transactions are carried on in secret and the amounts of purchases cannot be accurately estimated. The exchange rate on the ruble is rising rapidly and already the ruble is more valuable than the German mark.

LONDON PRESS RAPS DIPLOMAT

London, Feb. 17.—A strong attack against the proposal to send Earl Reading, the lord chief justice, to Washington as British ambassador was printed in the Morning Post today.

"If Earl Reading is sent to the United States it would be a scandal," the Morning Post said. The newspaper refers back to the sensational litigation in England over the transaction in Marconi Wireless stock in which the lord chief justice was involved.

FORCE WILSON'S HAND

Lodge Reservations Form Basis for Presidential Action.

Washington, Feb. 17.—Former Secretary Lansing's resignation, and the long chain of events leading up to it, including Lansing's disagreement with President Wilson at the peace conference, will be probably injected into the peace treaty debate in the senate today.

Senator Brandegee, Republican of Connecticut, is preparing to play what he and other senators opposed irrevocably to the American people being thrust into the League of Nations, regard as a trump card. Brandegee proposes to offer a new reservation that upon the failure of the president to deposit the treaty at Paris within thirty days after its ratification shall be considered nullified and the treaty "dead" so far as the United States is concerned.

The ostensible purpose of the suggested Brandegee reservation is to force the president's hand in the event an agreement is reached eventually on the Lodge reservations which will bring about ratification, and to prevent him, in case he finds the agreement unacceptable to him, from thrusting the treaty in a pigeon hole of his desk or "carrying it around in his pocket."

It is apparently intended to compel the president either to deposit or reject the treaty on the basis of the Lodge reservations to which he is opposed, instead of merely pigeon-holing it or pocketing it.

But its real purpose is believed to provoke a debate that will swing around the Lansing resignation and the president's reason for accepting it. Lansing's usurpation of the presidential prerogatives, by calling cabinet meetings while the president was incapacitated for four or five months.

Brandegee and other anti-administration senators will urge that "only as a precautionary measure" the senate, in the event of its ratifying the treaty, should adopt a proviso that the president must act on the treaty within 30 days after he receives it from the senate. They will contend the senate should prepare the treaty for the possibility of just such a contingency as confronted the country after the president's collapse on his ill starred tour of the west in behalf of the league of nations and unreserved ratifications.

Brandegee and other senators bitterly oppose to the treaty intend to seize any opportunity to rip the lid off the Wilson-Lansing affairs and they promise some lively sessions of the senate if they succeed in doing so. One of the rumors which was to be aired on the floor of the senate was that Mr. Lansing was removed because he had been in favor of Vice-President Marshall taking over the duties of the president during his illness.

FRENCH PRESS RAPS WILSON'S PROTEST NOTE

Paris, Feb. 17.—A violent attack against President Wilson and his British supporters on the Jugo-Slav-Italian controversy appeared under the signature of Premier in the Echo de Paris today. According to this writer, John W. Davis, American ambassador to England, may refuse to transmit to Washington the allies reply to President Wilson's note of protest.

M. Sauerwein, writing in the Matin, expressed the opinion that "there is no doubt that President Wilson is seeking a rupture to allow him to withdraw the peace treaty from the American senate." The writer adds: "The impetuous way in which President Wilson has returned to public affairs at this moment of greatest difficulty in settling the European problems, is an intolerable act for which it is to be hoped he is not fully responsible."

ALLIES ANSWER WILSON'S LETTER ON FIUME ROW

President Invited to Offer Solution of the Dispute

DEFEND PROPOSAL

Entente Proposition Not Unfavorable to the Jugo-Slavs.

London, Dec. 17.—The allied reply to President Wilson's memorandum regarding the Adriatic settlement will, according to information from reliable quarters, assure the president that the allied proposal of Jan. 20 is not so unfavorable to the Jugo-Slavs as he believes.

The note will be brief, it is said, consisting of about 150 words, and according to these quarters, will say it is recognized that the allies can not settle the question without the co-operation of the United States, and inviting the president to present a solution of the Adriatic problem.

President Wilson's note to the peace conference on the Adriatic question has furnished London political and newspaper circles with a surprise and interest surpassing that evoked by the Wilson-Lansing correspondence.

The president's reappearance as a determined party in the peace negotiations was construed as almost as threatening as his order for the steamer George Washington to be prepared to take him home from France.

The first versions of the event gave it the aspect of an ultimatum, which meant that the council of the allies must stand by the terms which President Wilson accepted in December or America would shake the dust of European affairs off her feet altogether, and also that the council had framed a stiffly-worded reply, adhering to its January offer to the Jugo-Slavs.

Later information appeared to soften the stiff-necked positions credited to both parties. This consisted of messages from Washington that too sweeping a construction had been given to the president's words, fortified by news from Downing street that the council had not finished composing its answer.

The note was not a threat to withdraw from participation in European affairs, it was declared from Washington, but said the United States could not be a party to the disposition of Fiume as agreed upon by the allied premiers without consulting the United States, and consequently would not concern itself with the questions involved, including the settlement of the Adriatic, if the settlement were enforced on the government of Jugo-Slavia.

BENSON SLATED AS SUCCESSOR TO J. B. PAYNE

Washington, Feb. 17.—Admiral W. S. Benson, U. S. N., retired, will be appointed as chairman of the U. S. Shipping Board to succeed John Barton Payne, who has been nominated as secretary of the interior. It was announced today at the White House.

The appointment will not be made for a month or six weeks as Chairman Benson desires to complete work which he has already stated in the shipping board.

Admiral Benson formerly was chief of naval operations of the navy department.

PROOF FURNISHED FOR DEPORTATION OF RED AGITATORS

Washington, Feb. 17.—Assistant Attorney General Carvan today announced that a mass of overwhelming proof warranted the immediate deportation of the 29 "reds" arrested in the Baterson raids. Mr. Carvan said the department will move quickly not only to send these terrorists out of the country, but to round up others, probably several scores, whose identity is now known to the secret service agents, through records obtained in the raids.

DANCER ENDS ENGAGEMENT

Paris, Feb. 17.—Carl Randall, of Chicago, internationally famous as a dancer, has ended his engagement here to marry an English girl of a wealthy and titled family, the Paris Midi stated today.

SHE'S WELL KNOWN SUFFRAGE WORKER IN NETHERLANDS

Mrs. Wijnandts Francken.

Mrs. Wijnandts Francken is one of the leaders of the women's movement which has spread over entire Holland since the acquisition of their vote. Mrs. Francken is but an example of her many countrywomen who have organized committees and leagues for the improvement of conditions of women of the Netherlands. One of the results of their efforts is that there are now women in nearly every town council.

DENIAL IS MADE THAT PRESIDENT ISSUED THREATS

Washington, Feb. 17.—President Wilson's protest to the European powers on the proposed settlement of the Adriatic question was brief, it was stated at the White House today. It was stated that it was not "more than eight or ten lines."

Despite statements made semi-officially yesterday that the president had threatened to withdraw from participation in the patrol of the Adriatic and the settlement of that question it was stated today that the president had made no threats.

It was stated today that the president had simply reaffirmed his position as to the Fiume question and had notified the allied powers that in as much as this nation had agreed to a proposed settlement of that question during the peace conference that there should be no change in that settlement without the consent of this government.

ALLIES REFUSE TRIAL REQUEST OF GERMANS

London, Feb. 17.—The allied reply to the German note of Jan. 25, proposing as an alternative to extradition that persons accused by the allies be tried at Leipzig, states that Germany's proposal for such trial at Leipzig is incompatible with article 228 of the peace treaty. The allies, the note says, will abstain from intervention in the procedure of that court.

After stating that the allies have carefully considered the German note of January, the reply says: "The powers observe, in the first place, that Germany declares herself unable to carry out the obligations imposed on her by articles 228 to 230, which she signed. They reserve to themselves the power to employ in such measure and form as they may judge suitable the rights accorded to them in this event by the treaty."

It is possible that re-examination of the charges of war guilt against the duke of Hesse, who is listed among the Germans demanded by the allies, may lead to his name being stricken from the list.

PROSECUTION OF I. W. W. MEMBERS CONTINUES

Montesano, Wash., Feb. 17.—The state will continue today its examination of eye witnesses of the Centralia armistice day tragedy at the trial here of the eleven alleged I. W. W. charged with murder of Lieut. Warren Grimm, legionnaire.

Today and tomorrow will be given over, it is intimated, in an effort on the part of the state to prove that the deaths of all the ex-soldiers slain in the Centralia shooting was due to these same eleven men though they are not charged with the deaths of any others than Grimm.

The jury may go to the scene of the crime at Centralia next Saturday.

RIDES AIRPLANE TO SEE MOTHER

Sandusky, O., Feb. 17.—Theodore E. Lauber arrived here yesterday just in time to attend the funeral of his mother, Mrs. Margaret Lauber. When Mrs. Lauber became ill last Friday, Mr. Lauber, who was at Nassau, Bahama Islands was notified by cable. He rode from Nassau to Miami, Fla., in a seaplane in the hope that he might see his mother alive. She died while on his way home.

RAIL OFFICES TO BE DISCONTINUED BEFORE MARCH

Legislation to Protect Roads Rushed To Passage.

AGREE TO PROVISIONS

Net Operating Income of 5 1-2 Per Cent Has Been Fixed.

Washington, Feb. 17.—Director General Hines of the railroad administration today announced the discontinuance of the offices of all regional directors March 1. Director Hines announced the resignation of Hale Holden, regional director for the central western region, effective as of February 15. The duties of the office will be carried on until March 1, by Robert Aishon, regional director of the northwestern district. Engineering and purchasing experts on the staffs of the regional directors will be transferred to Washington on March 1, to take part in the final adjustment of the affairs of the railroad administration.

Washington, Feb. 17.—Railroad legislation needed to protect the railroads upon their return March 1, to their private owners will be reported to the house tomorrow and will be rushed to passage by that body. Present plans are to bring it up next Saturday. The senate is expected to follow with speedy action.

The legislation comes from the senate and house conferees in reports to the senate and house with agreements as to the following general provisions:

The interstate commerce commission shall establish rates which shall yield on the aggregate property, value of all roads in each rate making district as set forth a net operating income of 5 1-2 per cent, to which may be added one half of one per cent to be applied to non-productive improvements, such as stations, terminals, straightening rights of way, etc. Two years after the law shall take effect and at stated intervals thereafter, the interstate commerce commission may change the rate of return by increasing or decreasing the 5 1-2 per cent guaranty based on rates authorized. Rates now in effect are continued for the period of government guaranteed returns.

The roads are required to retain as surplus, or funds otherwise described, for a period of six years fifty per cent of the net operating income in excess of six per cent, but at the end of that period this surplus may be distributed.

The roads are required to retain as surplus, or funds otherwise described, for a period of six years 50 per cent of the net operating income in excess of six per cent, but at the end of this period this surplus may be distributed. The guaranty of fixed returns applies to operating revenues only and use or distribution of other incomes are not restricted.

During the six months of guaranteed standard returns for the roads the interstate commerce commission only shall have power over rates, and no interstate or interstate rate may be changed except upon decision by the commission.

The interstate commerce commission is to fix maximum and minimum rail rates. The water carriers are exempted specifically from authority of the interstate commerce commission south portion Wednesday.

STATE INTRODUCES NEW METHOD IN NEWBERRY TRIAL

Grand Rapids, Mich., Feb. 17.—Cross examination of operatives of the federal department of justice who witnessed signed statements from a number of the 123 defendants in the Newberry vote fraud and conspiracy case featured the start of today's session of the trial.

In the use of these operative the government introduced a new method of introducing its evidence against the Newberry defendants. The signed statements which, it is charged show that the county campaign expenses alone averaged \$1,000 a count in many of the eighty counties. Michigan were obtained from the defendants as they left the grand jury room after testifying.

It was apparent today that the defense hopes to discourage the giving of testimony along this line by forcing the government agents to go over with them in detail the entire conversations from which the signed statements emanated.

The cross examination of a number of government witnesses has been delayed by the illness of several of the defendants. The trials sick list continues to grow.

PREVOST INDICTED ON MURDER CHARGE

Mt. Clemens, Mich., Feb. 17.—Lloy Prevost was bound over to the circuit court on a charge of first degree murder in connection with the slaying of J. Stanley Brown, wealthy resident of this city, found murdered in his automobile on a lonely road near Mt. Clemens, last December.

Her mother, Mrs. Emma Peterson passed away about four years ago at the Berlin home. Surviving her are her husband and a young son, Frederick, her daughter Florence, having died three years ago. She leaves also, her brother, Dr. Ervin Peterson, who is now stationed at Washington as head of the public health work of the American Red Cross.

Mrs. Berlin was a niece of Mr. and Mrs. Albert Tressler of the Springfield pike. Funeral services will be held at 2 o'clock Thursday at the home.

## LIGHT COMPANY SHOWS INCREASE IN BUSINESS

According to the financial statement just issued, the gross earnings of the Dayton Power & Light Company for the month of December, 1919, were \$332,820 and the net earnings were \$123,912.

The gross earnings show an increase of 24.28 per cent over the corresponding month of 1918, and a net increase of 23.37 per cent. The earnings of the company for the 12 months ending December 31, 1919, reached a total of \$2,332,868, against \$2,439,729 for the preceding year, an increase of 20.66 per cent. The net earnings for the past year were \$1,056,960, against a total of \$768,778 for the year 1918, making an increase in net business of 37.49 per cent.

The total assets of the company, including property investment, securities and accounts on December 31, 1919, were listed at \$16,200,604.97, against \$15,382,601.63 at the close of business on December 31, 1918. The company has \$3,386,900 of its capital stock listed as preferred and \$2,953,000 listed as common. The surplus of the corporation is now \$867,319.45.

## COUNTY GETS SUM OF \$75,600 FOR ROAD BUILDING

Greene county has been allowed \$75,600 as the state's share of the inter-county highways to be built here next summer.

The county commissioners asked to be allowed \$100,000 by the state. The state and county will each bear an equal share of the expense of building the roads.

The state highway department made the following allowances for the three roads which it is expected to improve:

Inter-county highway No. 472, the Jamestown and Cedarville pike, seven miles to be built, \$49,000; Inter-county highway No. 195, the Yellow Springs and Springfield pike, 1.3 miles to be built, \$9,100; Inter-county highway No. 50, the Springfield and Dayton pike, 2.5 miles to be built, \$17,500.

County Surveyor William J. Davis' report on the estimated cost of building the roads, has not been made.

## STAY ON THE WATER WAGON!

If You Are One Who Has Quit Indulging in Strong Drink.

Cadomene Tablets Will Help You Over the Rough Period.

Cadomene Tablets are helpful to weak nerves. Weak, faulty nerves often come from strong drink. Sometimes the system is impoverished by excesses of one kind or another, such as poor digestion, and faulty nutrition. Overwork, anxiety, and even grief causes abnormal nervous conditions. The strength of body declines. The strength of will power wanes. Nervousness and sleeplessness cause further weakness and loss of vitality. Years of faithful practice taught a great physician that the formula now used to make Cadomene Tablets would surely build up the health of his patients. Now, anyone can take this great medicine if needed. Mr. G. A. Hoover, R. R. No. 1, Reading, Pa., writes: "I am taking Cadomene Tablets with very gratifying results. Nervousness, overwork, and sleeplessness are my complaints."

Cadomene Tablets Will Help You Over the Rough Period.

Cadomene Tablets are helpful to weak nerves. Weak, faulty nerves often come from strong drink. Sometimes the system is impoverished by excesses of one kind or another, such as poor digestion, and faulty nutrition. Overwork, anxiety, and even grief causes abnormal nervous conditions. The strength of body declines. The strength of will power wanes. Nervousness and sleeplessness cause further weakness and loss of vitality. Years of faithful practice taught a great physician that the formula now used to make Cadomene Tablets would surely build up the health of his patients. ## BE RID OF THAT ACHE

If you are a sufferer with lame back, backache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend?

Mrs. Josephine Laurens, 306 Hill St., Xenia, gave the following statement January 7, 1915: "When my back has been lame and I have had that dull, constant ache across my kidneys, I have used Doan's Kidney Pills. When my kidneys have been out of order, I have also been bothered with dizzy spells and spots before my eyes. Doan's Kidney Pills have always relieved those troubles putting my kidneys in good order. I have bought Doan's at Donges' Drug Store."

OVER TWO YEARS LATER, on August 2, 1917, Mrs. Laurens said: "I still think a great deal of Doan's Kidney Pills because I have had wonderful results when I have used them."

## Caused by Acid-Stomach

Yes, indeed, more often than you think. Because ACID-STOMACH, starting with indigestion, heartburn, belching, food-repeating, bloating and gas, if not checked, will eventually affect every vital organ of the body. Severe, blinding, splitting headaches are, therefore, of frequent occurrence as a result of this up set condition.

Take EATONIC. It quickly banishes acid-stomach with its sour bloating, pain and gas. It aids digestion—helps the stomach get full strength from every mouthful of food you eat. Millions of people are miserable, weak, sick and ailing because of ACID-STOMACH. Poisons, created by partly digested food charged with acid, are absorbed into the blood and distributed throughout the entire system. This often causes rheumatism, biliousness, cirrhosis of the liver, heart troubles, ulcers and even cancer of the stomach. It robs its victims of their health, undermines the strength of the most vigorous.

If you want to get back your physical and mental strength—the full of vim and vigor—enjoy life and be happy, you must get rid of your acid-stomach.

In EATONIC you will find the very help you need and it is guaranteed. So get a big 50c box from your druggist today. If it fails to please you, return it and he will refund your money.

# Almost Impossible To Supply Enormous Demand For Tanlac

Although Huge Laboratories Turn Out 36,000 Bottles Daily Thousands of Dealers Cannot Be Supplied.

10 CARLOADS SOLD IN JANUARY ALONE

After Shipping 838,400 Bottles of Celebrated Medicine in One Month Factory is Still 380,000 Behind With Orders.

Although the big Tanlac laboratories at Dayton, Ohio, and Walkerville, Canada, have been running at top speed for months, it has been a physical impossibility to supply the phenomenal and every increasing demand for this celebrated medicine.

During the first ten weeks of last year One Million Three Hundred and twenty-seven thousand bottles of Tanlac were sold, breaking all world's record for the sale of proprietary medicines up to that time. This record now pales into insignificance, however, as orders received during January alone of this year reached the astonishing total of One Million Two Hundred and Twenty Thousand bottles, showing an increase of approximately one hundred percent over the corresponding period of 1919.

To say that Tanlac now has the largest sale of any medicine of its kind in the world expresses it mildly. It does not begin to tell the story—for no other preparation has ever even approached the marvelous record that is now being made by Tanlac; and it is now conservatively estimated that the sales for the present year alone will amount to from seven to ten million bottles.

Of the orders received during January it was possible to ship only eight hundred and thirty-eight thousand bottles and thousands of dealers scattered throughout the United States and Canada have been unable to obtain the medicine for weeks.

"Phenomenal and Baffling" is the way one of the big drug jobbers of the country describes the marvelous demand for Tanlac.

"We know that the day of miracles has passed, and we all know that there are no unfathomable mysteries in the drug business, but this Tanlac proposition smacks of both" writes another leader wholesale druggist, whose firm has sold over 34 car loads or an average of nearly one car load per month since they began handling Tanlac a few years ago. Thousands of similar letters and telegrams have been received, but for lack of space, they can only be referred to briefly.

Most proprietary medicines are sold by the dozen or by the gross; a few are bought by the trade in quantities of from ten to twenty gross; a very few are sold by the car load, and then only to the very largest jobbers, covering extensive territories. The fact therefore that scores of jobbers in this country and Canada have a demand sufficient to justify them in ordering not one carload, but from two to three car loads of Tanlac at a time makes Tanlac's pre-eminence in the field of medicine all the more noteworthy.

worthy. It is the biggest thing of its kind in the world and nothing like it has ever happened in the drug trade before.

Think of one retail firm selling one third of a million bottles of any one medicine right over the counter direct to consumers in only two years' time! It seems incredible, but such is the record made by the Owl Drug Company, through their retail stores on the Pacific Coast.

Think of one retail firm in a single city of 200,000 population, selling approximately eighty-eight thousand bottles an average of over two bottles for every family in only four years' time! Such is the record of the Jacobs' Pharmacy Company of Atlanta.

Think of one retail firm giving a single order for an entire car load, twenty-three thousand and forty bottles and agreeing to pay cash for the goods promptly on arrival. Such an order has been received from the Lewis K. Liggett Company, of Winnipeg, Canada.

Another big Canadian retail firm, G. Tamblin, Limited, Toronto, Canada, recently gave their order for one hundred gross, amounting to \$10,800. Orders from retailers for from fifty to seventy-five gross are not uncommon, and practically all of the leading retail firm buy Tanlac in from ten to twenty-five gross lots to supply their normal demands.

When the magnificent new laboratories at Dayton, Ohio, and Walkerville, Canada, with a combined floor space of seventy thousand square feet and a combined capacity of thirty-six thousand bottles were completed, it was thought that the production would be sufficient to supply the demand for years to come. It is now apparent, however, that additional facilities must be provided if the supply is to keep pace with the demand. And this is true in spite of the fact that there are now on the market from fifty to one hundred preparations claiming similar therapeutic value.

Tanlac has now been on the market for five years. It has stood the acid test of time. It is known and honored in every city, town, village and hamlet on the American Continent from Key West, Florida to the North ern wilds of Canada, where even the Indians and Fur Traders have learned of its wonderful powers as a medicine.

Its enormous and ever increasing popularity is the one great outstanding proof of its wonderful merit. No medicine, no matter how extensively advertised, could sell and continue to sell and establish new world's records year after year if it did not produce actual and positive results.

Tanlac is composed of the most beneficial roots and herbs known to the scientific world. The formula conforms with all National and State Pure Food Health Laws of both the United States and Canada, and although Tanlac's claims for superiority are abundantly supported by leading authorities, it is the people themselves who have made Tanlac what it is. Millions upon millions have used it and have told other millions what it has done for them.

That is why Tanlac has become the real sensation of the drug trade all over America.

Tanlac is sold in Xenia by Sayre & Hemphill.

## SOLDIERS SAVE MONEY SAYS A RED CROSS CHIEF

"Do soldiers who have received back pay and compensation for disability waste their money?" Most emphatically, they do not, says Mrs. Lulu C. Quisenberry, Red Cross home service secretary for Greene county.

Mrs. Quisenberry has watched cases in which men have received good sized sums of money through the local home service department, and she has found that in virtually every case they have realized the importance of saving it. Seven, she found, have bought little homes, or made their first payment on homes, with their money.

Back pay and compensation have been received by local ex-service men in varying sums, up to \$1,600, which was the highest.

In many cases, Mrs. Quisenberry says, she found that men whose service records had been lost had received no pay or perhaps only their final month's pay during the entire time of their service. This back pay has been obtained for them by the home service section. Liberty bonds subscribed for but never received and bonuses have also been obtained by many a local soldier through the efforts of Mrs. Quisenberry and her assistants.

Mrs. Quisenberry says that the local office received 289 applications in January for help and hospital care.

# Almost Impossible To Supply Enormous Demand For Tanlac

Although Huge Laboratories Turn Out 36,000 Bottles Daily Thousands of Dealers Cannot Be Supplied.

10 CARLOADS SOLD IN JANUARY ALONE

After Shipping 838,400 Bottles of Celebrated Medicine in One Month Factory is Still 380,000 Behind With Orders.

Although the big Tanlac laboratories at Dayton, Ohio, and Walkerville, Canada, have been running at top speed for months, it has been a physical impossibility to supply the phenomenal and every increasing demand for this celebrated medicine.

During the first ten weeks of last year One Million Three Hundred and twenty-seven thousand bottles of Tanlac were sold, breaking all world's record for the sale of proprietary medicines up to that time. This record now pales into insignificance, however, as orders received during January alone of this year reached the astonishing total of One Million Two Hundred and Twenty Thousand bottles, showing an increase of approximately one hundred percent over the corresponding period of 1919.

To say that Tanlac now has the largest sale of any medicine of its kind in the world expresses it mildly. It does not begin to tell the story—for no other preparation has ever even approached the marvelous record that is now being made by Tanlac; and it is now conservatively estimated that the sales for the present year alone will amount to from seven to ten million bottles.

Of the orders received during January it was possible to ship only eight hundred and thirty-eight thousand bottles and thousands of dealers scattered throughout the United States and Canada have been unable to obtain the medicine for weeks.

"Phenomenal and bewildering," is the way one of the big drug jobbers of the country describes the marvelous demand for Tanlac.

"We know that the day of miracles has passed, and we all know that there are no unfathomable mysteries in the drug business, but this Tanlac proposition smacks of both" writes another leader wholesale druggist, whose firm has sold over 34 car loads or an average of nearly one car load per month since they began handling Tanlac a few years ago. Thousands of similar letters and telegrams have been received, but for lack of space they can only be referred to briefly.

Most proprietary medicines are sold by the dozen or by the gross; a few are bought by the trade in quantities of from ten to twenty gross; a very few are sold by the car load, and then only to the very largest jobbers, covering extensive territories. The fact therefore that scores of jobbers in this country and Canada have a demand sufficient to justify them in ordering not one carload, but from two to three car loads of Tanlac at a time makes Tanlac's pre-eminence in the field of medicine all the more noteworthy.

worthy. It is the biggest thing of its kind in the world and nothing like it has ever happened in the drug trade before.

Think of one retail firm selling one third of a million bottles of any one medicine right over the counter direct to consumers in only two years' time! It seems incredible, but such is the record made by the Owl Drug Company, through their retail stores on the Pacific Coast.

Think of one retail firm in a single city of 200,000 population, selling approximately eighty-eight thousand bottles an average of over two bottles for every family in only four years' time! Such is the record of the Jacobs' Pharmacy Company of Atlanta.

Think of one retail firm giving a single order for an entire car load, twenty-three thousand and forty bottles and agreeing to pay cash for the goods promptly on arrival. Such an order has been received from the Lewis K. Liggett Company, of Winnipeg, Canada.

Another big Canadian retail firm, G. Tamblin, Limited, Toronto, Canada, recently gave their order for one hundred gross, amounting to \$10,800.

Orders from retailers for from fifty to seventy-five gross are not uncommon, and practically all of the leading retail firm buy Tanlac in from ten to twenty-five gross lots to supply their normal demands.

When the magnificent new laboratories at Dayton, Ohio, and Walkerville, Canada, with a combined floor space of seventy thousand square feet and a combined capacity of thirty-six thousand bottles were completed, it was thought that the production would be sufficient to supply the demand for years to come. It is now apparent, however, that additional facilities must be provided if the supply is to keep pace with the demand. And this is true in spite of the fact that there are now on the market from fifty to one hundred preparations claiming similar therapeutic value.

Tanlac has now been on the market for five years. It has stood the acid test of time. It is known and honored in every city, town, village and hamlet on the American Continent from Key West, Florida to the North ern wilds of Canada, where even the Indians and Fur Traders have learned of its wonderful powers as a medicine.

Its enormous and ever increasing popularity is the one great outstanding proof of its wonderful merit. No medicine, no matter how extensively advertised, could sell and continue to sell and establish new world's records year after year if it did not produce actual and positive results.

Tanlac is composed of the most beneficial roots and herbs known to the scientific world. The formula conforms with all National and State Pure Food Health Laws of both the United States and Canada, and although Tanlac's claims for superiority are abundantly supported by leading authorities, it is the people themselves who have made Tanlac what it is. Millions upon millions have used it and have told other millions what it has done for them.

That is why Tanlac has become the real sensation of the drug trade all over America.

Tanlac is sold in Xenia by Sayre & Hemphill.

## SOLDIERS SAVE MONEY SAYS A RED CROSS CHIEF

"Do soldiers who have received back pay and compensation for disability waste their money?"

Most emphatically, they do not, says Mrs. Lulu C. Quisenberry, Red Cross home service secretary for Greene county.

Mrs. Quisenberry has watched cases in which men have received good sized sums of money through the local home service department, and she has found that in virtually every case they have realized the importance of saving it. Seven, she found, have bought little homes, or made their first payment on homes, with their money.

Back pay and compensation have been received by local ex-service men in varying sums, up to \$1,600, which was the highest.

### SHALL THE GOVERNMENT BE SUPERSEDED OR NOT?

Henry J. Allen is one of the few men in the United States who has been elevated to high office almost unwittingly. When he was elected Governor of Kansas he was in Y. M. C. A. service in France. In fact, he was away from home during the entire campaign; never made a speech, wrote a campaign letter, or spent a cent in pushing his candidacy. He got back to Kansas just in time to attend his own inaugural.

When the United Mine Workers went on strike and his state was left with empty coal bins he decided to fill the bins. The expert miners refused to work, so he took over the mines for the state and ten thousand volunteers, guarded by troops, dumped into cars enough to keep all Kansas from freezing. The situation however, forcibly impressed on him the need for some legal machinery that would prevent its recurrence and he called the legislature together to consider an industrial program having for its basic idea the prevention of strikes rather than their suppression once they are under way. He outlines his idea in this article. He says:

"I believe the time has come when a tribunal should be established which shall have jurisdiction over the offenses committed against society in the name of industrial warfare; and which shall have authority to meet industrial discontent before it crystallizes, by a careful oversight and regulation of conditions of labor and of social opportunity which, if allowed to fester, breed class hatred and bitter antagonism.

Government should have the same power to protect society against the ruthlessness of industrial strife as it has always had to protect it against recognized crime. This court must hold the possibility of equal and exact justice for employers, employees and the public.

"If moral principles do not exist in Anglo-Saxon institutions to justify their extension to meet this vital American need, then Anglo-Saxon institutions are doomed to failure. A minority which has secured control of a product upon which human life depends and which undertakes, for the purpose of affecting wages or profit, to withhold that product from the public until the public shall freeze or starve, has, in effect, superseded government and arrogated to itself control of the destinies of human life which governments alone have the power to safeguard.

"Events of the past few months have unveiled the startling dangers of a conscious purpose to build in this country, out of a minority, a process of determination which sets government and majorities at naught and seeks to establish in their place a class control which would wipe out all that the ages have builded for society.

"Defenders of the system which makes this possible declare that this has not been its conscious purpose and I am free in granting that, on the part of some, this is true; but the callous indifference with which both minorities viewed the impending recent disaster which they were willing to bring upon the public, relieves us of the necessity of making nice distinctions of language.

"This hour gives its own terrible prophecy of the danger. It is of the utmost importance that the public should waken to the fact that the battle is not alone between employer and employe. It is between government and those class-minded organizations which seek to supplant it."

### NO MORE HAPSBURGS.

Nations seem to learn surprisingly little from history, even when it is their own history. Hungary, after all she has suffered from monarchy, has voted for a return of monarchic rule. And for a monarch she wants another Hapsburg!

Ordinarily it would hardly be considered anybody else's business what kind of a ruler Hungary might have. But it is different in this case. The war started by the Hapsburgs, which in origin and character was quite in keeping with the Hapsburg history and traditions, has led to a stern resolve on the part of the dominant powers that never again will that unprincipled dynasty be tolerated.

Europe is fed up on Hapsburgs. The Allies have therefore served notice on Hungary that 'such a restoration of a dynasty which to its subjects represents a system of coercion and in alliance with Germany over other races would not be consistent either with the principles for which this war has been fought or with the result of the liberation of subject peoples which has been achieved, "and that the choice of a Hapsburg would be at variance with the peace settlement, and can be neither recognized nor tolerated."

Europe is fed up on Hohenzollerns too, and any attempt to set any of that brood on any throne will call forth a similar prohibition.

This incident, however, shows that the curse is seated deeper than most people have thought. The evil is eradicated when the autocrats are removed. Like Aesop's frogs, the foolish people may still clamor for a king, and court their own destruction. The monarchy idea is strong yet throughout Central Europe. There is still too much Hapsburg in Hungary and Austria, and too much Hohenzollern in Germany. Before the world is really safe, the people themselves must be democratized. That is a slower process than kicking kings off their thrones.

Probably the most noticeable result at the present time of the Wilson-Lansing break is the opportunity it has furnished for Washington correspondents to send out long articles showing inside information on the president's character, but it is significant that these articles appear only after the press has already felt out the pulse of the nation, and the correspondent is quick to write his story accordingly.

The chap who broke into the workhouse in Columbus the other day, must either have a rare sense of humor or else none at all.

One beneficial result of a cold spell is that it always furnishes a safe topic of conversation, among some of us.

Official Washington forecast for today: Temperature frigid, with cold winds from White House. Cabinet members shiver in expectation.

## TWENTY YEARS AGO

The appropriation bill for the year now up in the legislature will give to Wilberforce \$19,000.

Troy Record—They are actually agitating the building of a new court house at Xenia, as the old one is little better than a pig pen.

Ohio State Journal—The incorporation of the Columbus and Xenia Traction Co., with \$10,000 capital stock, was authorized by the Secretary of State Kinney on Thursday. The company has been organized for the purpose of establishing an electric line between Xenia and Columbus, with the principal office at Xenia. The incorporators are, John Little, A. Wickersham, A. G. Carpenter, F. E. McGervey and A. S. Frazer.

A movement is on foot by some of the citizens of South Detroit street, Spring Hill, to pave the street and a petition is being circulated to that effect. It is meeting with considerable favor and there is a probability that the plan may be successful.

## HOW TO USE VICK'S VAPORUB TO PREVENT FLU

FLU GERMS ARE BREATHED IN. INFLAMED AIR PASSAGES. MAKE IDEAL BREEDING GROUNDS FOR THESE GERMS.

KEEP AIR PASSAGES OPEN

Melt a Little Vick's VapoRub in a Spoon Night and Morning and Inhale Vapors—Also Apply Up the Nostrils Several Times a Day, Especially Just Before Being Exposed to Crowds.

Flue This Year is Milder

While we know very little more about the flu now than we did last year—the germ itself has never been positively identified—still most authorities agree that the flu germs are breathed in. If the system is in good shape and the membrane or lining of the air passage is in healthy condition—these germs are thrown off.

A good plan is to melt a little Vick's VapoRub in a spoon night and morning, and inhale the vapors, also apply a little up the nostrils several times a day, especially just before being exposed to crowds.

Treat All Colds Promptly

Above all, keep free from colds, as colds irritate the lining of the air passages and make them real breeding grounds for germs. Prompt use of Vick's VapoRub aids in preventing colds. For head colds, sore throat or hoarseness, rub Vick's well over the throat and chest and cover with a warm flannel cloth. For deep chest colds, severe sore throat or bronchitis, hot wet towels should first be applied to the throat, chest and back between the shoulder blades to open the pores. Then Vick's should be rubbed in over the parts until the skin is red—spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck, so the vapors, released by the body heat, may be freely inhaled.

These vapors, inhaled with each breath, carry the medication directly to the lungs and air passages. At the same time Vick's is absorbed thru and stimulates the skin, thus aiding to relieve the congestion within.

Use of External Treatment for Colds Increasing

Vick's VapoRub is the discovery of a North Carolina druggist who found how to combine in 'salve form, the standard time tested remedies, Camphor—Menthol—Eucalyptus—Thyme, etc.—so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors.

Vick's is particularly recommended for children's croup or colds, since it is externally applied and therefore can be used freely and often without the slightest harmful effects.

The best evidence of the value of Vick's is the steadily increasing number of people who have been converted to the use of this "outside" treatment.

Beginning with the customers of a small retail drug store, the use of Vick's has grown—year by year—state by state—until now more than 17 million jars are used annually. And this in spite of the fact that Vick's is a new form of treatment to many folks in the North and West. Vick's can be had at all druggists in three sizes—30c, 60c or \$1.20.

### CHATTER

They were very fond of each other and had been engaged; but they had quarreled, and were too proud to make it up. He called afterward at her house—to see her father on business.

"Ah—Miss Blank, I believe?" said he. "Is your father in?"

"No, sir," she replied, "father is not at present. Do you wish to see him personally?"

"Yes," was the bluff response of the visitor, who felt that his former sweetheart was yielding—"I wanted to see him on very particular business—" and he turned away haughtily.

"I beg your pardon," she called after him as he reached the last step, "but who shall I say called?"

"Yes," proudly announced the ex-captain who is manager of the new \$10,000,000 hotel, "all our employes are former service men, every one of them. The desk clerk is an old top kicker, the floor clerks have all been non-coms in charge of quarters, the chef was a mess sergeant, the waiters were all permanent K. P.'s, the house doctor was a base hospital surgeon, the house detective was an intelligence policeman, the bellhops were dogrobbers."

"And have you any former M. P.'s?" he was asked.

"Yes," he replied, "When there's a good stiff wind blowing we use them as outside window washers on the eighteenth floor."

Hubby (with irritation): Why is it that you women insist upon having the last word?

Wife (calmly): We don't. The only reason we get it is because you stupid men are all run out.

### PULLED THIS SICK MAN OUT OF BED AND MADE HIM WELL

Had Typhoid Fever, Was Still in Bed When He Read About New Tonic.

SENT FOR BOTTLE RETURNS TO WORK

"I was still in bed from an attack of Typhoid fever and rheumatism when I read in the paper about this new tonic called Earle's Hypo-Cod. I sent down for a bottle and in three weeks it had put me back on my feet and I was again at work at the National Cash Register plant," declared O. L. Comb's Boss Truck Man at the above plant for the past six or more years.

"When I started taking Earle's

Hypo-Cod my stomach pained me a good deal after eating—gas would form and I was terribly weak. I had lots of pains in my shoulders and arms," continued this gentleman of Dayton, Ohio.

After sickness a person should take a tonic and quickly put themselves back on their feet. Even Earle's Hypo-Cod will do nothing miraculous. It will, however, give nature strength and increase the disease resisting vitality, enrich the blood, improve digestion and steady the nerves. Read the formula on the bottle, we know you will see that it is good. Then take home a bottle with you tonight.

Earle's Hypo-Cod is sold here by Son's Drug Store, (opposite Court House), and the leading druggists in all nearby towns. Price \$1.25 plus 5c war tax.

## SHALL THE GOVERNMENT BE SUPERSEDED OR NOT?

Henry J. Allen is one of the few men in the United States who has been elevated to high office almost unwittingly. When he was elected Governor of Kansas he was in Y. M. C. A. service in France. In fact, he was away from home during the entire campaign; never made a speech, wrote a campaign letter, or spent a cent in pushing his candidacy. He got back to Kansas just in time to attend his own inaugural.

When the United Mine Workers went on strike and his state was left with empty coal bins he decided to fill the bins. The expert miners refused to work, so he took over the mines for the state and ten thousand volunteers, guarded by troops, dumped into cars enough to keep all Kansas from freezing. The situation however, forcibly impressed on him the need for some legal machinery that would prevent its recurrence and he called the legislature together to consider an industrial program having for its basic idea the prevention of strikes rather than their suppression once they are under way. He outlines his idea in this article. He says:

"I believe the time has come when a tribunal should be established which shall have jurisdiction over the offenses committed against society in the name of industrial warfare; and which shall have authority to meet industrial discontent before it crystallizes, by a careful oversight and regulation of conditions of labor and of social opportunity which, if allowed to fester, breed class hatred and bitter antagonism.

Government should have the same power to protect society against the ruthlessness of industrial strife as it has always had to protect it against recognized crime. This court must hold the possibility of equal and exact justice for employers, employees and the public.

"If moral principles do not exist in Anglo-Saxon institutions to justify their extension to meet this vital American need, then Anglo-Saxon institutions are doomed to failure. A minority which has secured control of a product upon which human life depends and which undertakes, for the purpose of affecting wages or profit, to withhold that product from the public until the public shall freeze or starve, has, in effect, superseded government and arrogated to itself control of the destinies of human life which governments alone have the power to safeguard.

"Events of the past few months have unveiled the startling dangers of a conscious purpose to build in this country, out of a minority, a process of determination which sets government and majorities at naught and seeks to establish in their place a class control which would wipe out all that the ages have builded for society.

"Defenders of the system which makes this possible declare that this has not been its conscious purpose and I am free in granting that, on the part of some, this is true; but the callous indifference with which both minorities viewed the impending recent disaster which they were willing to bring upon the public, relieves us of the necessity of making nice distinctions of language.

"This hour gives its own terrible prophecy of the danger. It is of the utmost importance that the public should waken to the fact that the battle is not alone between employer and employe. It is between government and those class-minded organizations which seek to supplant it."

## NO MORE HAPSBURGS.

Nations seem to learn surprisingly little from history, even when it is their own history. Hungary, after all she has suffered from monarchy, has voted for a return of monarchic rule. And for a monarch she wants another Hapsburg!

Ordinarily it would hardly be considered anybody else's business what kind of a ruler Hungary might have. But it is different in this case. The war started by the Hapsburgs, which in origin and character was quite in keeping with the Hapsburg history and traditions, has led to a stern resolve on the part of the dominant powers that never again will that unprincipled dynasty be tolerated.

Europe is fed up on Hapsburgs. The Allies have therefore served notice on Hungary that such a restoration of a dynasty which to its subjects represents a system of coercion and in alliance with Germany over other races would not be consistent either with the principles for which this war has been fought or with the result of the liberation of subject peoples which has been achieved, "and that the choice of a Hapsburg would be at variance with the peace settlement, and can be neither recognized nor tolerated."

Europe is fed up on Hohenzollerns too, and any attempt to set any of that brood on any throne will call forth a similar prohibition.

This incident, however, shows that the curse is seated deeper than most people have thought. The evil is eradicated when the autocrats are removed. Like Aesop's frogs, the foolish people may still clamor for a king, and court their own destruction. The monarchy idea is strong yet throughout Central Europe. There is still too much Hapsburg in Hungary and Austria, and too much Hohenzollern in Germany. Before the world is really safe, the people themselves must be democratized. That is a slower process than kicking kings off their thrones.

Probably the most noticeable result at the present time of the Wilson-Lansing break is the opportunity it has furnished for Washington correspondents to send out long articles showing inside information on the president's character, but it is significant that these articles appear only after the press has already felt out the pulse of the nation, and the correspondent is quick to write his story accordingly.

The chap who broke into the workhouse in Columbus the other day, must either have a rare sense of humor or else none at all.

One beneficial result of a cold spell is that it always furnishes a safe topic of conversation, among some of us.

Official Washington forecast for today: Temperature frigid, with cold winds from White House. Cabinet members shiver in expectation.

Ramsey of Springfield, gave an interesting talk on the convention held recently in Cincinnati. The W. C. T. U. will meet Thursday afternoon with Mrs. S. W. Cox. Miss Mary Pickard will read a paper in memory of Frances Willard.

## DANDRUFF SOON GETS YOUR HAIR

Let "Danderine" check nasty scurf and stop hair falling out

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

## BOWELS SO BAD HE TOOK QUART OF MINERAL WATER A DAY

Mr. Whitesides was in a bad way. Tells how he got over it.

"I suffered for years with stomach trouble and constipation. I got so I could eat nothing but soft food and had to take a quart of mineral water a day for my bowels. I decided to try Milks Emulsion and have used 3 bottles. The results have been wonderful. The soreness left my stomach, I can eat solid food, my bowels have improved and I feel like a new man. Anyone suffering as I did should lose no time in starting on Milks Emulsion."—M. F. Whitesides, 214½ S. 6th St., Springfield, Ill.

The more physics you take, the more you'll need. Break away from them. Milks Emulsion costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

## Heart and Home Problems

Dear Mrs. Thompson: I am a woman thirty years old and have known a young man twenty-eight years old for the past nine months and then I did not hear from or see him for four months. After that he came back and we became engaged.

The other day I received a letter from another girl saying she had known him and been keeping company with him for the past two years. He was very ill last spring and sent for her. It was the four months I knew nothing about him. Then he came back to me and treated her very badly and finally broke off with her entirely in spite of the fact that she had been a good loyal friend and very much in love with him. She was especially good to him when he was ill. She said he told her that he and I had quarrelled and that I was very anxious to get married, which is true. She says that he has been seeing her regularly up to the present time and she does not think he treated either of us fairly.

What do you think of him, and do you think I ought to break my engagement with him? The other girl wrote a nice letter and I believe she told the truth.

It is better to remain single all one's life than to marry a man who is faithless and brings only unhappiness. You yourself will be the best judge in this matter. Talk to the man and see what explanation he offers. If you believe that he is sincere and loves you, and that the other woman has over-estimated his affection for her, remain engaged a few months more, taking time to test his character further, and if he proves true, marry him. From what the other woman says you have reason to feel discouraged.

Dear Mrs. Thompson: I am a girl twenty-one years old. I have a lot of

friends and a good job, but I am not satisfied. My mother and father are both dead and so I have to stay with some relatives.

They are always telling me that I am a good girl, but they treat me coldly and I know that they do not want me, although I do everything I can to please them.

Sometimes I think of going to the Y. W. C. A. to stay, but if I went they would talk about me and say I had gone astray. I don't want to do anything that would cause people to look down on me.

I have a boy friend twenty-one years of age whom I dearly love. At times he seems to think a lot of me, but sometimes when he tells me he is going to call he calls up another girl and I don't hear from him. Often he goes for a week and doesn't ask for a date, but when he does come he tells me where he has been. He asks me to kiss him, but I refuse.

Anything you can tell me will be appreciated.

TROUBLED. I believe you are right in wanting to live at the Y. W. C. A. Your relatives may be doing all they can to make their home your home, but nevertheless you are an outsider and do not belong to the family. At the age of twenty-one you should feel free to make your own decisions and when in your judgment a thing is right, thought should not be given to what people will say.

Your method of living after you leave your relatives will be sufficient evidence of your character. When in doubt try to decide what advice your mother and father would give you, were they alive, and in this way you will almost always be helped. If you lead a clean and right life people will admire you and not condemn.

The young man you mention is too young to have serious intentions. Regard him as a good friend, refuse to kiss him, and be satisfied with the relationship for a few years.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

### Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

# Heart and Home Problems

Dear Mrs. Thompson: I am a woman thirty years old and have known a young man twenty-eight years old for the past nine months. I went with him for a couple of months and then I did not hear from or see him for about four months. After that he came back and we became engaged.

The other day I received a letter from another girl saying she had known him and been keeping company with him for the past two years. He was very ill last spring and sent for her. It was the four months I knew nothing about him. Then he came back to me and treated her very badly and finally broke off with her entirely in spite of the fact that she had been a good loyal friend and very much in love with him. She was especially good to him when he was ill. She said he told her that he and I had quarrelled and that I was very anxious to get married, which is true. She says that he has been seeing her regularly up to the present time and she does not think he treated either of us fairly.

What do you think of him, and do you think I ought to break my engagement with him? The other girl wrote a nice letter and I believe she told the truth.

It is better to remain single all one's life than to marry a man who is faithless and brings only unhappiness. You yourself will be the best judge in this matter. Talk to the man and see what explanation he offers. If you believe that he is sincere and loves you, and that the other woman has over-estimated his affection for her, remain engaged a few months more, taking time to test his character further, and, if he proves true, marry him. From what the other woman says you have reason to feel discouraged.

Dear Mrs. Thompson: I am a girl twenty-one years old. I have a lot of friends and a good job, but I am not satisfied. My mother and father are both dead and so I have to stay with some relatives.

They are always telling me that I am a good girl, but they treat me coldly and I know that they do not want me, although I do everything I can to please them.

Sometimes I think of going to the Y. W. C. A. to stay, but if I went they would talk about me and say I had gone astray. I don't want to do anything that would cause people to look down on me.

I have a boy friend twenty-one years of age whom I deeply love. At times he seems to think a lot of me, but sometimes when he tells me he is going to call he calls up another girl and I don't hear from him. Often he goes for a week and doesn't ask for a date, but when he does come he tells me where he has been. He asks me to kiss him, but I refuse. Anything you can tell me will be appreciated.

believe you are right in wanting to live at the Y. W. C. A. Your relatives may be doing all they can to make their home your home, but nevertheless you are an outsider and do not belong to the family. At the age of twenty-one you should feel free to make your own decisions and when in your judgment a thing is right, thought should not be given to what people will say.

Your method of living after you leave your relatives will be sufficient evidence of your character. When in doubt try to decide what advice your mother and father would give you, were they alive, and in this way you will almost always be helped. If you lead a clean and right life people will admire you and not condemn.

The young man you mention is too young to have serious intentions. Regard him as a good friend, refuse to kiss him, and be satisfied with the relationship for a few years.

TO FLOAT BIG LOAN TO CHINA IS REPORT

Washington, Feb. 16.—The United States, Great Britain, France and Japan are to join in making a loan to China, it was announced at the state department today.

Assistant Secretary of State Phillips stated that the loan to China which has been made by large banking interests, was made at the request of the government. The consortium for a loan to China by the large powers has not been definitely arranged and the government requested the private loans in order to tide over China's immediate needs.

PHYSICIAN DECLARES WILSON IS AFFECTED

Chicago, Feb. 16.—Medical circles here were stirred today as a result of the announcement of Dr. Arthur Dean-Beaven, former president of the American Medical Association, that President Wilson should be retired because of physical incapacity.

"The president has a permanently damaged brain," Dr. Beaven was quoted as saying, admitting, however, that he had not seen the president and that he based his statement on a printed statement accredited to Dr. Hugh H. Young, of John Hopkins university, who attended the president.

STREET CARS IN CRASH SIX HURT

Cleveland, Feb. 16.—Six persons were injured, two probably fatally, when a north bound Kinsman Road street car crashed into a rapid transit car at 30th street and Woodland avenue today. The brakes of the Kinsman avenue car failed to hold and sliding on the icy rails the car struck the rapid transit car squarely in the middle.

The impact threw the passengers in both cars into a heap. They were showered by broken glass from the windows. The cab of the Kinsman Road car was demolished.

The injured were rushed to Charity hospital in ambulances, one man being unconscious.

A WOMAN'S VERDICT

Tells of Suffering Greatly With Kidney and Bladder Trouble and How Balmwort Brought Relief.

Her Letter Well Worth Reading.

Mrs. Nellie McGinn, 609 East 138th street, New York City, writes:

"For the last year I have suffered greatly from Kidney and Bladder trouble, distressing pain in the back and hips, with rheumatic twinges and frequent severe headache, accompanied by nervousness, chills, and fever; also a frequent desire to eliminate, a smarting, burning sensation, with pain in the region of the bladder. I would frequently have to arise at night, my sleep being disturbed by the pressure and inflammation in bladder. Beginning the use of Balmwort Tablets I noticed almost instant relief, and continuing to use them I am now totally well and relieved of all pain and distress from which I suffered. I am glad to recommend Balmwort Tablets as a reliable beneficial medicine and trust others may find relief and freedom from pain and distress as I did, etc."

The above letter is a true statement and is on file in our offices. Balmwort Tablets bring relief when other medicine has failed. Sold by leading druggists, \$1.00 per tube.

# For Coughs and Colds Use This Reliable Remedy

Don't Pay \$2 a Pint for Syrup

If you want a cough medicine that is surely fine for coughs, colds, hoarseness, bronchial atCMDLatSHR and throat irritations, get 3 ounces of Glando Pine (50 cts. worth) with full directions for preparing and you can make a full pint of excellent cough medicine. Glando Pine gets right at the cause of the cough. The first dose relieves, it opens the air cells and makes you breathe easy. Children love to take it. When prepared according to directions it will not separate as some of the inferior cough medicines do.

George Pollick, a painter and decorator, of Logansport, Ind., says: "I took a severe cold which settled all through my system. I had severe pains in my chest and lungs. My thro it was swollen and sore. Glando Pine gave me relief almost instantly. I consider it very fine for coughs and colds."

Mrs. John Polter of 359 S. Williams St., Paulding, Ohio, said, "I neglected to doctor a cold which settled on my lungs. My cold grew worse until I coughed almost constantly. I began to spit blood. I lost in weight and looked so bad that people thought I had tuberculosis. I finally tried Glando Pine. The first bottle helped me. I continued its use until I was cured. I firmly believe that Glando Pine saved my life."

To avoid disappointment be sure you get Glando Pine. Once you have used it you will never want to be without it in your home.

Manufactured only by the Gland-Aid Co. Fort Wayne, Ind.

# Thousands of cases of dyspepsia BUT ONLY ONE PEPSINCO

PEPSINCO is the only indigestion remedy that we know—and we know lots of so called dyspepsia cures—that will almost infallibly relieve an attack of indigestion, food distress or gas. ## TO FLOAT BIG LOAN TO CHINA IS REPORT

Washington, Feb. 16.—The United States, Great Britain, France and Japan are to join in making a loan to China, it was announced at the state department today.

Assistant Secretary of State Phillips stated that the loan to China which has been made by large banking interests was made at the request of the government. The consortium for a loan to China by the large powers has not been definitely arranged and the government requested the private loans in order to tide over China's immediate needs.

## PHYSICIAN DECLARES WILSON IS AFFECTED

Chicago, Feb. 16.—Medical circles here were stirred today as a result of the announcement of Dr. Arthur Dean Beaven, former president of the American Medical Association, that President Wilson should be retired because of physical incapacity.

"The president has a permanently damaged brain," Dr. Beaven was quoted as saying, admitting, however, that he had not seen the president and that he based his statement on a printed statement accredited to Dr. Hugh H. Young, of John Hopkins university, who attended the president.

## STREET CARS IN CRASH SIX HURT

Cleveland, Feb. 16.—Six persons were injured, two probably fatally, when a north bound Kinsman Road street car crashed into a rapid transit car at 30th street and Woodland avenue today. The brakes of the Kinsman avenue car failed to hold and sliding on the icy rails the car filled with passengers struck the rapid transit car squarely in the middle.

The impact threw the passengers in both cars into a heap. They were showered by broken glass from the windows. The cab of the Kinsman Road car was demolished.

The injured were rushed to Charity hospital in ambulances, one man being unconscious.

## A WOMAN'S VERDICT

Tells of Suffering Greatly With Kidney and Bladder Trouble and How Balmwort Brought Relief.

Her Letter Well Worth Reading.

Mrs. Nellie McCann, 609 East 138th street, New York City, writes:

"For the last year I had suffered greatly from Kidney and Bladder trouble, distressing pain in the back and hips, with rheumatic twinges and frequent severe headache, accompanied by nervousness, chills, and fever; also a frequent desire to eliminate, a smarting, burning sensation, with pain in the region of the bladder. I would frequently have to arise at night, my sleep being disturbed by the pressure and inflammation in bladder. Beginning the use of Balmwort Tablets I noticed almost instant relief, and continuing to use them I am now totally well and relieved of all pain and distress from which I suffered. I am glad to recommend Balmwort Tablets as a reliable beneficial medicine and trust others may find relief and freedom from pain and distress as I did, etc."

The above letter is a true statement and is on file in our offices. Balmwort Tablets bring relief when other medicine has failed. Sold by leading druggists, \$1.00 per tube.

Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Ready prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with cough and you want quick relief, try this reliable old home-made cough remedy. Any druggist can supply you with 2 1/2 ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

TOLEDO, Feb. 17.

Corn, \$1 54; oats, \$1; rye, \$1 60; clover seed, \$5.

## For Coughs and Colds Use This Reliable Remedy

Don't Pay \$2 a Pint for Syrup

If you want a cough medicine that is surely fine for coughs, colds, hoarseness, bronchial and throat irritations, get 3 ounces of Glando Pine (50 cts. worth) with full directions for preparing and you can make a full pint of excellent cough medicine. Glando Pine gets right at the cause of the cough. The first dose relieves, it opens the air cells and makes you breathe easy. Children love to take it. When prepared according to directions it will not separate as some of the inferior cough medicines do.

George Pollick, a painter and decorator, of Logansport, Ind., says: "I took a severe cold which settled all through my system. I had severe pains in my chest and lungs. My throat was swollen and sore. Glando Pine gave me relief almost instantly. I consider it very fine for coughs and colds."

Mrs. John Polter of 359 S. Williams St., Paulding, Ohio, said, "I neglected to doctor a cold which settled on my lungs. My cold grew worse until I coughed almost constantly. I began to spit blood. I lost in weight and looked so bad that people thought I had tuberculosis. I finally tried Glando Pine. The first bottle helped me. I continued its use until I was cured. I firmly believe that Glando Pine saved my life."

To avoid disappointment be sure you get Glando Pine. Once you have used it

## TRAVELS LONG DISTANCE FROM HOME TO XENIA

In the last stages of tuberculosis, but buoyed up by the hope that in Xenia he could be cured, Robert Davidson, colored, who gave his address as 1334 Joe Johnson street, Nashville, Tenn., applied to the county commissioners and to the home service section of the Red Cross for help.

The man who was about 45 years of age, was wearing a soldier's uniform and said that he had been a member of the 369th Infantry. Doubtful of his story, the commissioners and Mrs. Lulu C. Quisenberry, home service secretary, were uncertain what steps to take.

Under the impression that he had already been at Washington Hospital, to which he insisted he wished to enter, Mrs. Quisenberry advised him to return there temporarily, as he was in such physical condition that he was not able to be on the streets.

As he had not been in the hospital, he was advised upon presenting himself there, to see another doctor, and was on his way down town when he became exhausted and fell in the street near the Johnson undertaking office. He was carried into the undertaker's office and later arrangements were made through County Commissioner R. E. Corry who had become interested in the case, and Mrs. Quisenberry for his removal to the hospital at the National Military Home, Dayton, Monday.

The man said that his relatives had gathered together every penny they had to come to pay his railroad fare to Xenia as they had learned that tuberculosis could be cured here. He was destitute. It is believed by officials that the man is not an ex-soldier, but being desperately ill had taken the chance of impersonating a soldier in

## XENIA'S OLD RIVAL WILMINGTON TO PLAY HERE TUESDAY

Xenia and Wilmington, old rivals in the field of athletics will meet at the rink court here Tuesday evening when the Xenia Bradys stack up against the Wilmington Maroons.

The Bradys have been going at such a lively clip in their last few games, that they are anticipating little trouble in disposing of the Quakers, although little is known of the activities of the Clinton county basketballers so far this season.

The Bradys deserve considerable credit for their recent showing, their defeat of the Dayton Durions by a large score, proving their ability on the court. The Durions are rated as one of the fastest teams in Dayton and they were chock full of confidence that they could easily handle Captain Stephens and his crew.

The fans who have been watching the rapid strides being made by the Bradys will watch Tuesday night's game with interest as it is the initial encounter of these two teams and is practically unexplored territory for the local pill tossers.

Peddling Liquor Prescriptions. Cincinnati, Feb. 17.—Speculation in physicians' prescriptions calling for whisky to be used in the treatment of influenza is being investigated by federal officials here. Shrimp a la Creole—Place in a chafing dish: One cup of thick cream sauce, one tomato, cut into tiny dice, two onions, chopped fine, one green pepper, chopped fine, one teaspoon of salt, one teaspoon of paprika, one teaspoon of chili powder, one large can of shrimp, two tablespoons of butter. Heat to the boiling point and then let simmer slowly. Serve on toast.

To Make Tartar Sauce—To one cup of mayonnaise dressing add one dill pickle, four branches of parsley, one small onion, chopped very fine. Baked White Fish—Get one about two pounds and preferably boned. Roll in flour and dip in milk and then in bread crumbs. Lay three thin slices of lemon over the top, which have been dipped in finely chopped parsley. Season with salt, pepper and butter. Bake. Fish makes a nice change from so much meat in summer, and it is not as expensive as meat.

Sprinkle with flour and bake for one and one-half hours in a hot oven, basting with its own broth. Five minutes before taking it out of the oven strewn fine dry bread crumbs thickly over it. Put dots of dripping here and there over it and let

it brown. Serve with a brown sauce made from the broth in which the meat was cooked.  
Salmon Loaf—Shred one can of salmon and mix with two medium size onions, shredded. Beat one egg and mix with this. Small bits of bread may be added if desired. Bake in a moderate oven for about an hour.

### DISCOVERIES.

To keep mattress clean—Make covers with strong unbleached sheeting, just like a pillow slip, leaving the loose end open. Make it good and loose and fasten together with button holes. You will find to your great delight that when you commence housecleaning you can wash your covers and just dust your mattress with a dust brush. You can keep them nice and clean by taking the covers off several times in the year.

In place of a broom splint or straw use a steel knitting needle with which to try cakes, bread, etc. It does not bend or break as a straw, and can be washed and kept clean for continual use. If the cake is not done, the dough will stick to the needle, otherwise it will come out clean.

To improve quality and increase quantity of mince meat bought in package—After dissolving in usual manner, cream two tablespoons corn starch, add this to boiling mince meat with a little extra water. This will make an extra pie to each package of mince meat.

When filling salt and pepper shakers try to fill with a funnel. Place the funnel in the shaker, after the cover has been taken off, and see how much quicker and cleaner it is. One wastes a lot of salt and pepper by filling them the old way.

#### CHAPTER 54.

"Why so serious, fair lady?" It was Mary Ryan's mocking voice which asked the question; Mary's laughing eyes that looked into mine. "I'm worried about Robert."

"At last." "I don't know what you mean. But he came home last night and told me he wasn't making good at Calding's. I couldn't ask him any questions—the way he spoke of it kept me silent."

"Didn't he tell you any thing?" "Only that when he asked for his promised raise, they told him he had not earned it."

"Poor fellow! Honest, Gerry, in the words of the poet, my heart bleeds for him."

I couldn't help laughing at Mary; yet I felt very serious as I told her of my tears and my sympathy for Robert.

"I feel so different this time," I said. "Before I could talk encouragingly, because I did not feel discouraged myself about him. But this is different. Something must be wrong with Robert—he should have made good with Calding. I wouldn't say this to him for the world, but it worries me."

"Yes—it would worry most women. Of course it don't make as much difference to you as it might to some women—the kind who couldn't wear the pants. But still

I can see it makes a lot, even to you. Can't you think of any way to chirk him up a little? Couldn't you give him something to work for?"

"No more than he has now. Oh well, I guess it will come out right some way!" I replied, then attended to a waiting customer. Some way I did not get the comfort from talking with Mary that I used to before I was married. Yet I had to talk to someone. Then I didn't understand Mary any more. She always acted as if there was something I ought to do; as if I were in some way to blame for Robert's defection, his failures.

"Yes, in the wash, maybe!" Mary had called after me as I left her.

That night Robert did not come home to dinner. I waited until 8 o'clock, then called up Marion Hovey. I had determined to be polite, although I was jealous, hurt that Robert would so neglect me. I had no intention of playing the part of a neglected wife before her or anyone. I would tell her I was going to ask the Murphys and Weeds for Sunday and wanted her too. What I really intended, was to find out if Robert were there—if I could.

"I want to speak to Miss Hovey," I said when a voice answered my call.

"She's gone to the theater, I'm her brother—I'll take any message." "Never mind—you don't know where she went—to what theater?" "No, they didn't say."

"I desperately wanted to ask why 'they' meant. But rung off without doing so. I would not stoop to question a small boy—much as I longed to know if Robert was with Marion. But I would not stay home alone. I would ring up Gardner Kenyon. He would be glad to run up for an hour. But he also was out. Again I left no message, and smiled grimly as I thought of my wasted nickels.

I would not stay alone. I would go and sit with Mary Ryan for an hour. She had no telephone, so I could not waste a nickel on her. If she were out I would have my walk anyway. That would be better than staying alone.

When I reached the street I saw a group of people coming toward the house, and heard excited voices. I waited, curious as to what had happened.

As they drew near the house, I saw that two men had a third between them, half leading, half carrying him.

"Probably drunk," I said aloud, and stepped back into the shadow of the vestibule to wait until they had passed.

"Here's the place," someone said, and I saw the two men lead the one who appeared rather helpless up the steps. To my horror, I recognized Robert and cried out:

"Oh, what is it? What has happened to him? I am his wife—is he hurt?"
